Northland Māori Forestry Forum - Whangarei

Date: Monday 3 April 2017
Time: 9.00am - 4.00pm
Location: Forum North Centre, 7 Rust Avenue,
Whangarei

Unlocking the potential of Māori forestry - innovations and aspirations

With \$2 billion in forestry assets that include land, trees and energy options, Māori are set to become key stakeholders in the future of forestry.

This Forestry Forum will provide a platform for Māori and forest owners to understand the new partnership between Te Taitokerau Māori Forestry Collective and Scion in regards to forestry opportunities within Te Taitokerau.

This forum provides an overview of the potential that exists through adding more value to forested land.

There is no cost to attend this forum, however **registration is essential**. Register at www.scionresearch.com/maori-forestry-forum

This is an opportunity for Māori land and forest owners to influence the future direction of Māori forestry

Scion is a Crown Research Institute dedicated to improving the international competitiveness of the New Zealand forest industry and building a stronger biobased economy.

This forum will showcase Scion research capability relevant to Te Tai Tokerau interests in:

- Nursery development
- Breeding
- Genetics
- Harvesting
- Built environment
- Wood processing
- Precision forestry
- Ecosystem services
- Manufactured bioproducts
- Biosecurity
- Bioenergy

Linking to education, skills and qualifications.
