Call for Entries Now Open!

First Stage Entries for all categories close 5pm,
Friday 22 June, 2012

CATEGORIES AND CRITERIA

1 RESIDENTIAL ARCHITECTURAL EXCELLENCE:

For the innovative use of timber, resulting in a distinctive visual impact on a residential building, either stand-alone or multi-unit/multi-storey project.

2 COMMERCIAL ARCHITECTURAL EXCELLENCE:

For the innovative use of timber resulting in a distinctive visual impact on a commercial, industrial, or public building environment.

3 ENGINEERING EXCELLENCE:

For the innovative use of engineered timber, resulting in a distinctive technical/structural impact on a residential, commercial, industrial or public building environment.

4 EXTERIOR INNOVATION:

For any wood or wood panel product that forms the exterior of a structure, be it residential or non-residential which highlights the versatility and flexibility of wood while enhancing the buildings aesthetic.

5 INTERIOR INNOVATION:

For innovative use of wood or a wood panel product as a signature feature, in a predominantly wood building, adding ambience, flair and practicality.

6 TIMBER INNOVATION IN BUSINESS:

Most innovative use of timber to solve a business/commercial challenge.

7 INDIGENOUS TIMBER SHOWCASE AWARD:

The use of indigenous timber in a manner that best highlights its unique characteristics. This category is open to entries from across the spectrum of timber usage from furniture to buildings, facilities to objet's d'art.

8 CANTERBURY REBUILD INNOVATION:

Most effective use of timber in architectural and engineering terms, as a response to the Canterbury rebuild – this award is open to both built and unbuilt.

9 SUSTAINABILITY AWARD:

For entries that show a commitment to sustainability where there is a focus on timber, the carbon footprint, location of supply, energy efficiency etc.

More information about judging criteria available on request.
