

## CORRIGENDUM

New Zealand Journal of Forestry Science 20(3): 257-67

**WATER POTENTIAL AND SUBSEQUENT GROWTH  
OF *PINUS RADIATA* SEEDLINGS:  
INFLUENCE OF LIFTING, PACKAGING,  
AND STORAGE CONDITIONS**

J. M. BALNEAVES and M. I. MENZIES

The equations in Fig. 2 and Fig. 4 were incorrect. The corrected forms are given here.

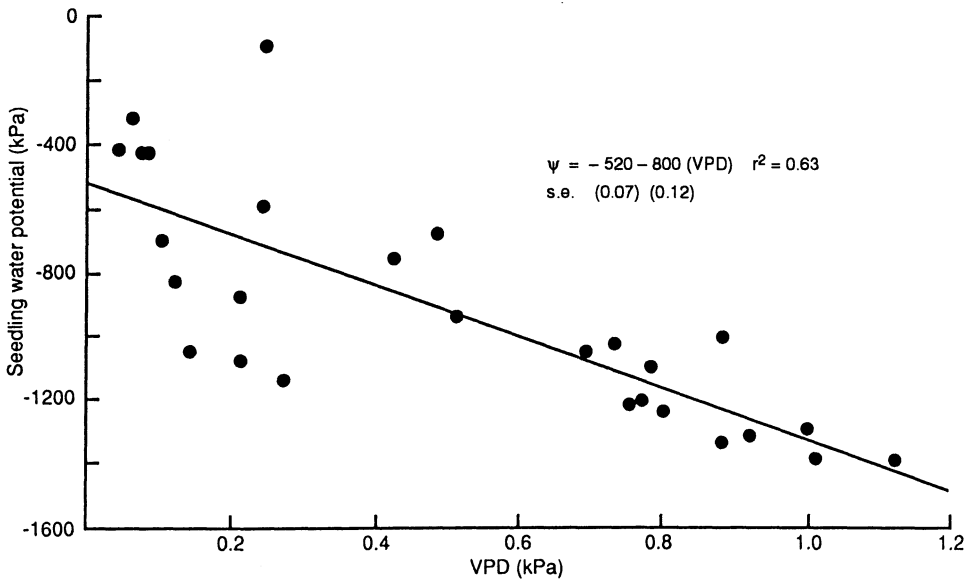

FIG. 2—Influence of vapour pressure deficit on seedling water potential

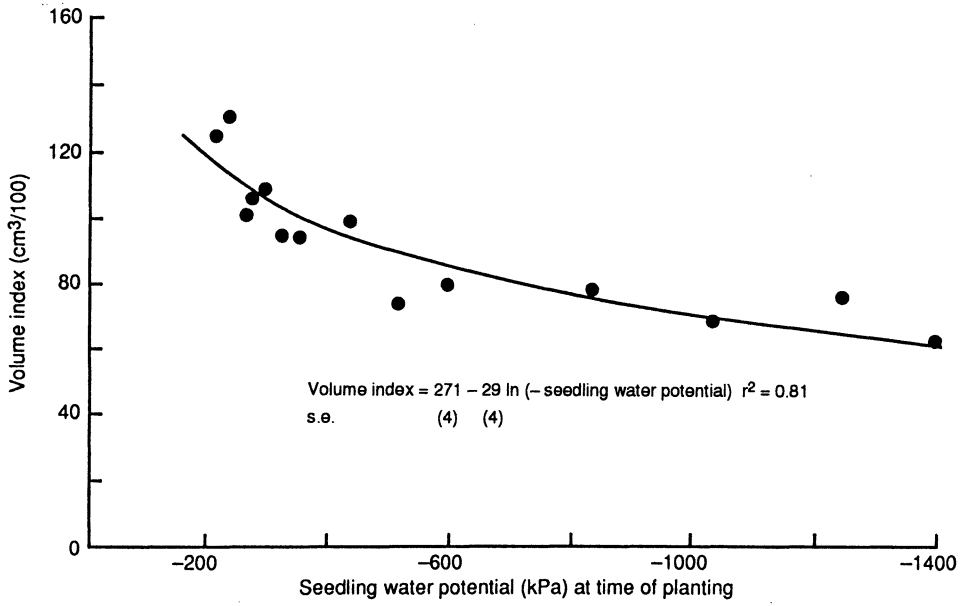

FIG. 4—Relationship between seedling water potential at time of planting and tree productivity (volume index) 2 years after planting
